

ELFIM403

International financial management

Syllabus

Administrative information

Instructor(s): Bereau Sophie, Santarossa Silvio, Ledent Philippe (substitute)

Quadrimester: 2nd

Number of credits and teaching hours: 5 credits / 30 hours

Language: English

Contact: sophie.bereau@unamur.be

Learning outcomes

The course deals with the international aspects of corporate finance.

Content

The course introduces international financial markets. It starts out with the recent evolution of the international monetary system, major exchange rate regimes and international money and capital markets. It then presents the main components of the foreign exchange markets: spot and forward markets, and the ensuing derivative instruments: currency futures, options and swaps.

Teaching methods

The course is based on lecture and in-class presentation

Evaluation

Written exam + oral presentations

Recommended readings

Multinational Business Finance (David K. Eiteman, Arthur I. Stonehill, Michael H. Moffett)
