

## UNamur spin-off companies

Spin-offs are companies created downstream academic research to promote the expertise and research results. They actively contribute to job creation and economic expansion. The UNamur has created 22 spin-off companies so far, 18 of which are in activity.

### LIST

Company name	Field of activity
	<p>(*) Company specialized in techniques for water flow characterization. They offer innovative technological solutions and customized expertise to hydrogeological or hydrological inquiries (analysis, diagnosis, monitoring).</p> <p>Website: <a href="http://www.traqua.be/en/">www.traqua.be/en/</a> Contact: <a href="mailto:contact@traqua.be">contact@traqua.be</a></p>
	<p>(*) Biological and environmental consulting company combined with a multidisciplinary lab specialized in biomonitoring, ecological assessments and biological surveys.</p> <p>Contact : <a href="mailto:contact@e-biom.com">contact@e-biom.com</a></p>
	<p>(*) Surface optimization techniques to enhance any material.</p> <p>Website: <a href="http://www.incosol4u.com">www.incosol4u.com</a> Contact: <a href="mailto:Stéphane.Lucas@incosol4u.com">Stéphane Lucas</a></p>
	<p>Providing industries, hospitals and universities with all the analytical services for blood investigations and hemocompatibility testing.</p> <p>Contact: <a href="mailto:Jonathan.Douxfiles@qualiblood.com">Jonathan Douxfiles</a></p>
<p><b>MGA Consulting</b></p>	<p>(*) MGA Consulting offers training sessions to improve in-company collaboration.</p> <p>Contact : <a href="mailto:Martin.Mahaux@mgaconsulting.com">Martin Mahaux</a></p>
	<p>(*) Expertise in Data Analytics and Business Intelligence. BStorm also develops high-added-value applications to automate expert behaviour.</p> <p>Website: <a href="http://www.bstorm.be">www.bstorm.be</a> Contact : <a href="mailto:info@bstorm.be">info@bstorm.be</a></p>
	<p>(*) SkalUP is active in AI, enabling companies to better manage and detect e-marketing strategies by building their own or tailor-made applications.</p> <p>Website: <a href="http://www.skalup.com">www.skalup.com</a> Contact: <a href="mailto:contact@skalup.com">contact@skalup.com</a></p>
	<p>(*) Research, development and production of biological alternatives for plant protection (biological elicitors).</p> <p>Website: <a href="http://www.fytofend.com">www.fytofend.com</a> Contact : <a href="mailto:info@fytofend.com">info@fytofend.com</a></p>

Company name	Field of activity
	(*) Specialized in high technology skin biology and dermocosmetics assays.  Website: <a href="http://www.straticell.com">www.straticell.com</a> Contact: <a href="mailto:info@straticell.com">info@straticell.com</a>
	A robust modeling platform with our proprietary <i>Automated Model Driven Engineering</i> technology and metadata approach at its core.  Website: <a href="http://www.rever.eu">www.rever.eu</a> Contact: <a href="mailto:info@rever.eu">info@rever.eu</a>
	Digital solutions for smarter patient care.  Website: <a href="https://xperthis.com/fr">https://xperthis.com/fr</a>
	Nanocyl provides high quality Carbon Nanotube (CNT) solutions that improve the properties of <b>your material</b> such as ESD/electrical conductivity, mechanical reinforcement, thermal dissipation and eco-friendly fouling release.  Website: <a href="http://www.nanocyl.com">www.nanocyl.com</a> Contact : <a href="mailto:sales@nanocyl.com">sales@nanocyl.com</a>
Eppendorf Application Technologies	EAT (formerly Advanced Array Technology) is part of Eppendorf, specialized in biotechnology, more specifically microarray detectors for biotech analysis.  Contact : <a href="mailto:info-be@eppendorf.be">info-be@eppendorf.be</a>
<a href="http://www.euroscan.be">Euroscan Instruments</a>	ESCA (XPS) spectrometers (maintenance, upgrades, design, sale and rental) Website: <a href="http://www.euroscan.be">www.euroscan.be</a> Contact : <a href="mailto:mail@euroscan.be">mail@euroscan.be</a>
PATH	PATH (Psychology, Technical Aids and Handicap) asbl Website: <a href="http://www.creth.be">www.creth.be</a>
	Veterinarian laboratory performing, reliable and economic diagnosis tools (ELISA, IFA, PCR) for any animal. Website: <a href="http://www.biox.com">www.biox.com</a> Contact : <a href="mailto:info@biox.com">info@biox.com</a>
	Clinical development and patient-oriented research.  Website: <a href="http://www.lambdaplus.com">www.lambdaplus.com</a> Contact : <a href="mailto:info@lambdaplus.com">info@lambdaplus.com</a>
<a href="http://www.civadis.be">Civadis</a>	Computer management software for public administrations.  Website: <a href="http://www.civadis.be">www.civadis.be</a>

(\*) with the support of the SPW Recherche FIRST Spin-off programme.  
More info on the "[Spin-offs de Wallonie](http://www.spin-offs.de.wallonie.be)" website.
